

Gas Fireplace Codes

The following is a list of Colorado counties and their codes regarding Vent Free Gas Fireplaces and Gas Lighters being installed in homes, condos, or apartments. I have been told on a number of accounts that Vent Free Gas Fireplaces were permitted in certain counties. However, many times I learned from the mechanical inspector that this information from the county was incorrect. Therefore, I took it upon myself to ask each Colorado County “Do you permit Vent Free Gas Fireplaces or Gas Lighters to be installed in homes, condos and apartments?” Here are the results:
